ABOUT ME

I'm a passionate developer who loves creating interactive and responsive websites. I focus on writing clean, maintainable code, and continuously improving my skills to keep up with industry trends. In addition to web development, I enjoy collaborating with other developers and designers to bring innovative ideas to life and build engaging user experiences. I also studied Linux by joining Kelompok Studi Linux (KSL) on campus. I believe I can achieve the targets, work well in a team, and be objective in whatever I do.
